

## iGroup Publishing User Guide

### HART Publishing

#### Booknet Co.,Ltd. (iGroup Thailand)

Law is a system of rules a society sets to maintain order and protect harm to persons and property. Today, most countries have tens or hundreds of thousands of pages of law. Law students are burdened with a great deal of reading. There are dozens of extensive law books that they must learn to become familiar with the law and how it works. These books can be quite hefty, making it nearly impossible for law students to carry them around when they need to refer to them.

Law eBooks Collection from iG Publishing offers easy and essential reading for all in the legal profession. Students and professionals alike will benefit greatly from the vast variety and new in-depth case studies which are constantly updated. publisher collection is updated with new titles when they become available. IG Publishing's Law eBooks Collection contains eBooks from the following publishers :

#### Hart Publishing

Hart Publishing, established in 1996, is the largest independent academic law publisher in the UK. Hart titles are intellectually stimulating and innovative. They contribute to the academic study of law as well as to its development and practical implementation. Hart's list is international in scope, and is distributed globally. With over 750 titles in print, including journals, textbooks, scholarly monographs and works for practitioners, the list spans the entirety of legal scholarship.

Hart also has publishing links with many of the world's leading universities and law schools and with legal publishers across the globe, including CH Beck in Germany and Pedone in France. Hart books have won numerous prizes for their contribution to legal studies. In 2009 Hart was awarded the accolade of ' Academic & Professional Publisher of the Year 2009 by the Independent Publishers Guild.

#### Using the Law eBooks Collection

Searching eBooks is quick and easy thanks to the advanced and user-friendly platform developed by iG Publishing Group. Users can search across all titles in the collection simultaneously, or search individual titles using keywords or phrases. Searches can be narrowed to content, titles, chapters and authors. Browsing of book covers is also an option.

#### With the Law eBooks Collection, you may :

- Search across hundreds of key texts simultaneously.
- Narrow searches by title, chapter and author.
- Translate text into seven languages : simplified Chinese, traditional Chinese, Japanese, Korean, Arabic, Spanish and Portuguese.
- Create and store complex search strings using Search History and save them to disk for future reference.
- Bookmark specific pages or chapters for reference during a current session.
- Share information from specific eBooks with colleagues or students using networking sites such as

Facebook, MySpace, Twitter, Google and many more.

#### IG publishing /Hart :Translation text into seven language.

1. Simplified Chinese - ภาษาจีนแบบย่อ
2. Traditional Chinese - ภาษาจีนดั้งเดิม
3. Japanese - ภาษาญี่ปุ่น
4. Korean - ภาษาเกาหลี
5. Arabic - อารามิก
6. Spanish - ภาษาสเปน
7. Portuguese – ภาษาโปรตุเกส

#### Ebook : IGpublishing Platform

There are 6 menus in the main page.

1. Search
2. Browse Catalogue
3. Search History
4. Bookmarks
5. User Guide
6. Logout

These menus are located in the upper section of the main page. The main page will look similar to the samples shown below (variations depend on the individual collection). In addition, the main pages of certain collections feature a browse menu on the right side of the page. This menu can be used to browse by topic.

## A. การสืบค้น

This facility allows users to search for publications using key words or phrases applicable to that publication. Users can also opt to narrow their search by entering the Book Title, Author's name, Contents of the book or Chapter name, or all 5 fields if desired. If no field is chosen, the search will default to the Contents field.

## B. การ Browse Catalog

You can browse all books in the collection here.

ISBN:0-89871-243-2

In the Browse Catalogue page each book is displayed showing the publication's cover, title, author, publisher, year published and ISBN number. By clicking on a book title you can open that book and browse by chapter or page by page. MARC records for all books in the collection can be downloaded via the "download MARC records for this collection" link at the top of the page.

## C. การเช็คข้อมูลที่ได้ทำการสืบค้นไปก่อนหน้านี้

This option allows users to view a maximum of 30 search histories for that particular PC. Searches can be carried out again using previously searched words or by combining the searched words with new terms or in combination with field checkboxes. Users can also save particular searches to their hard disk for later use by clicking on the Floppy Disk icon  to the right of the search result. Users can also load the saved search by clicking the "Load Saved Query" button and selecting previously saved files.

There are 29 Queries found in Search History

1  (Matrix) in TITLE  

2  (Continuum) in TITLE  

3  (Ill-Posed) in TITLE  

4  (Problems) in TITLE  

5  (Integrodifferential) in TITLE  

6  (COLLECTED) in TITLE  

Total: 29 Queries Max: 30 Free: 1

#### D. การค้นหาหนังสือ

Users can bookmark a page or chapter for future reference by clicking the checkbox to the right of the chapter or page heading and can later access all bookmarks from this menu.

The screenshot shows the SIAM Reference Collection search results for the query "(DISCRETE ALGORITHMS) in CONTENT". The results page displays 31 books (467 pages). The top result is "PROCEEDINGS OF THE FOURTH SIAM INTERNATIONAL CONFERENCE ON DATA MINING" by Michael W. Berry, Umeshwar Dayal, Chandrika Kamath, and David Skillicorn. Below the title, there is a list of authors and a search result snippet. On the right side, there is a "Process Results" section with options to "View more detail" or "less detail", and buttons for "Select All", "None", "Invert", "Place bookmark(s)", and "Remove". Below that is a "SearchBox" with a "Refine this results" checkbox and radio buttons for "Title", "Author", "Contents", "Chapter Name", and "All Fields".

#### E. หน้าจอแสดงผลการค้นหา

After searching a word or phrase, search result will be displayed in two frames.

Left frame displays –

1. The number of books and pages found for a particular searched word or phrase
2. Highlighted search words found in context
3. Icons for bookmarking a page and checkboxes for selecting multiple pages to bookmark

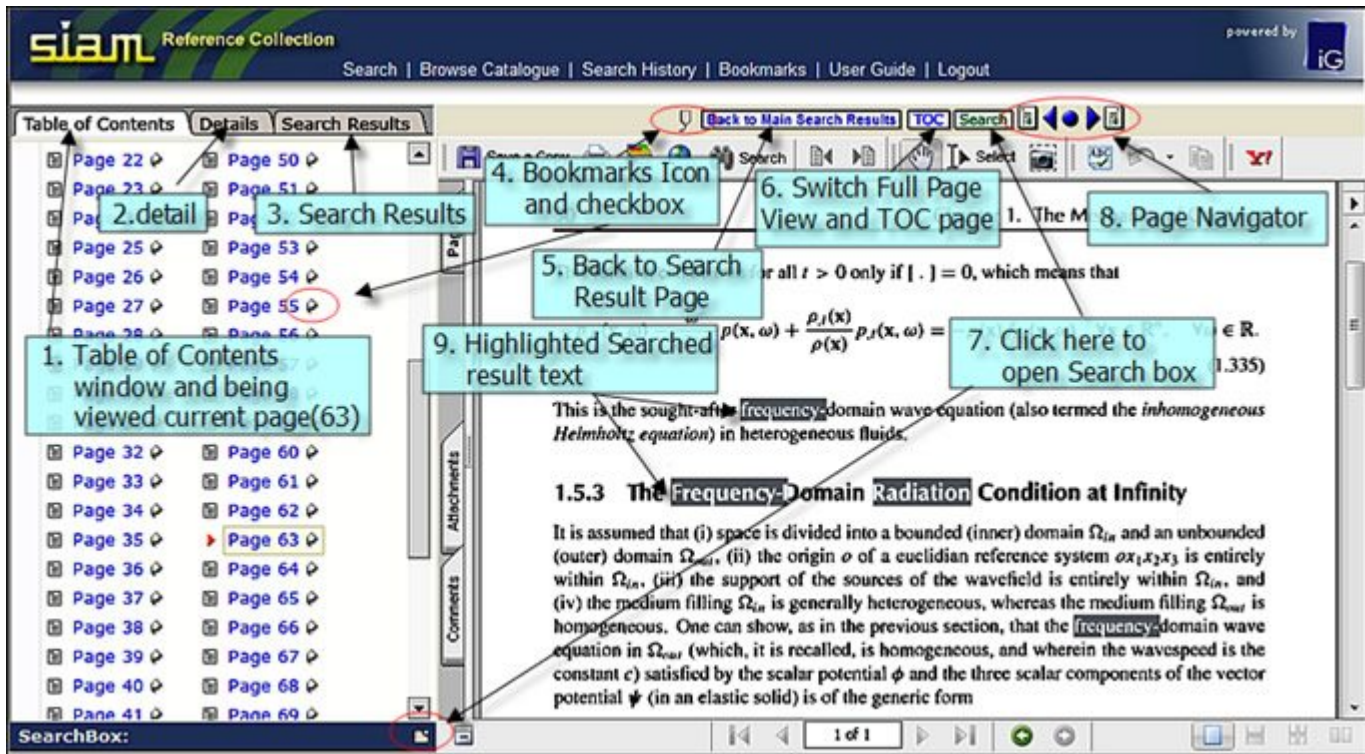

Right frame displays –

4. Result list navigator at the top to browse books in the search result.
5. Option to view more or less search result detail in the left frame
6. A facility to refine the current search result and search box

The screenshot shows the SIAM Reference Collection search results for the query "((radiation) in CONTENT) AND ((frequency) in CONTENT)". The results page displays 30 books (48 pages). The top result is "MARINE ACOUSTICS Direct and Inverse Problems" by James L. Buchanan, Robert P. Gilbert, Armand Wirgin, and Yongzhi S. Xu. The page is annotated with five callout boxes: 1. "result description and search criteria" pointing to the search query; 2. "highlight to searched result text" pointing to the word "frequency" in the search result snippet; 3. "Bookmarks Icon and Checkbox" pointing to the bookmark icon and checkbox next to the page heading; 4. "Result list navigator" pointing to the page navigation controls at the top right; 5. "To change result window display (left side)" pointing to the "View more detail | less detail" link in the "Process Results" section.

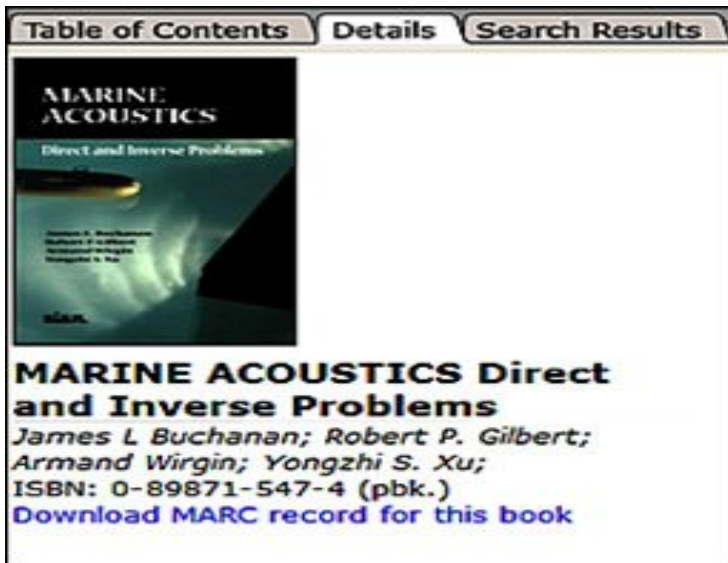

F. หน้าจอแสดงผลการค้นหาลงละเอียด

When users click on a page in a search result or on a book title in the Browse Catalogue page, a detailed view of the page/book will be displayed as below. There are two frames in the Detail View Page.

In the left frame:

- 1) **Table of Contents** tab: The default display in the Detail View Page, it shows the Table of Contents of the book and the page being viewed (indicated by a small red arrow). The page displayed may be either a page containing a searched word or phrase or simply the first page of the book, depending on how the user arrived at the Detail View Page.
- 2) **Details** tab: Users can click on this tab to display detailed information on the book, including the book's title, author(s), publisher, year published, ISBN number and MARC record download link for that particular book.

- 3) **Search Results** tab: This displays search result information **within** the book the user is currently viewing, including searched words highlighted in red. (To view the main search results, users can click on the **Back to Main Search Results** button in the right frame of the Detail View Page).

4. **Bookmark Icon:** User can add the page currently viewing to bookmarks by clicking this  bookmark icon.

**In the right frame:**

5. **Back to Main Search Results:** Click this  button to return to Main Search Results page.

6. **TOC:** Users can select this  option to switch the display between full page view and view with Table of Contents included. In other words, it can be used to hide the TOC on the left frame.

7. **Search:** Click this  button to open and close Search Box at the lower corner of left frame.

8. **Page Navigator:** Click these buttons  to go to the next page or return to the previous page.

9. Searched words or phrases appear in highlights in the PDF frame.
